## INTRODUCTION

On the 74 rolls of this microfilm publication are reproduced the compiled records that give histories of Confederate military units. The compiled records consist of jacket-envelopes bearing the names of the units and titled "Captions and Record of Events." These jacket-envelopes typically contain (1) caption cards showing the exact captions of the muster rolls as copied and the certificate of the mustering officer verifying the accuracy of the rolls; and (2) record-of-events cards containing information relating to the stations, movements or activities of each unit or a part of it, and sometimes to its organization or composition, strength and losses, and disbandment. The amount of information contained on a card varies. Some include only date and name of station of the unit. Others give detailed accounts of the unit's operations and activities. These compiled records are part of the War Department Collection of Confederate Records, Record Group 109.

Because some records of the Confederate Army were lost or destroyed during the war and at its close, the compiled military histories of most units are incomplete. There are no record-of-events cards for a small number of State units that were mustered into Confederate service and for militia units that were never mustered into service.

The compilation of records showing service of Confederate military units was undertaken simultaneously with compilation of service records of Confederate soldiers. The work was begun in 1903 under the direction of Brig. Gen. Fred C. Ainsworth, head of the Record and Pension Office in the War Department. Abstracts were made from documents in the War Department's collection of Confederate records and from documents borrowed mostly from Southern States by the War Department in an effort to obtain as complete military histories of units as possible. The original muster rolls and returns were the principal sources of information abstracted on the caption cards and lists of officers envelopes, but rosters, payrolls, hospital registers, casualty lists, Union prison registers, casualty lists, Union prison registers and rolls, parole rolls, and inspection reports were also examined for this purpose. Abstracts were verified by separate comparison, and every precaution was taken to ensure their accuracy.

Some of the jacket-envelopes, particularly those titled "Captions," "Rolls," "Instructions," or "Information," do not contain card abstracts, but do contain information cards that serve as cross-references to records filed with other units. On the front of each jacket-envelope is a series of numbers that corresponds to the number on the back of each card in the jacket. The reverse side, which contains a number and a date stamp, was

## NATIONAL ARCHIVES MICROFILM PUBLICATIONS

not filmed unless it contained additional information. The numbers and dates were stamped on the cards for control purposes at the time the compiled records were prepared. Later, notations were made on some jackets to indicate that clothing rolls of the units were extant. Card abstracts were prepared from information on these rolls and filed with compiled records of individual soldiers but not in the jacket-envelopes reproduced on this microfilm publication.

Preceding the jacket-envelopes of most units are empty envelopes on which are listed the names of officers of the unit or, occasionally, only the name of the commanding officer. The letter "C" and the numbers "1" and "2," which follow names of officers, indicate the grades of captain, first lieutenant, and second lieutenant, respectively. The lists often include dates on which units were called into service and mustered out; dates of deaths, promotions, resignations, or retirements of officers; and information relating to consolidations, transfers, disbandments, or other changes in the organization of units. A stamp reading "All rolls filed herewith" appears on some of the lists, but no rolls are now filed with the lists. Similarly, the notation "For references see inside," which appears on some lists, should be disregarded as there are now no reference sheets in the envelopes.

Lists of officers were prepared for many State militia units that were not mustered into service and for other organizations for which no rolls were found. These lists are filed under "Miscellaneous" and appear at the end of records of State units and at the end of records of units raised directly by the Confederacy. With a few exceptions no lists were prepared for units from North Carolina.

Most of the compiled records reproduced in this microfilm publication are arranged alphabetically by State, thereunder by type of unit (cavalry, artillery, and infantry), followed by reserve, militia, local defense, conscript, prison guard, instruction, or other organizations. The table of contents was prepared from caption cards; the information in parentheses or brackets consists of other names by which units were known and related information. The arrangement of compiled records for units raised directly or otherwise formed by the Confederate government is similar except that the latter units are not broken down by State.

The National Archives has compiled records of Confederate soldiers who served in units whose histories are reproduced in this microfilm publication. There are also card indexes to help locate the compiled service records of Confederate soldiers. All the records and the related indexes have been microfilmed.

The archivist responsible for the preparation of this microfilm publication is Geraldine N. Phillips.

RECORD OF EVENTS.

There has never been any regular  
Inspector & Mustering officer ap-  
pointed by the Genl. Comd. -  
mounting, but the troops com-  
prising the Legion have been  
informally mustered and  
inspected by some one of the  
field officers of the Command  
at the end of every month.  
This will account for the ab-

There are many men in the

there is a pay roll as it

I have taken care to remark  
that the remarks set opposite the  
names of each soldier is true and  
full, unless in some instances I  
have not given dates from the  
facts I could not do so. My Company  
Brook's having been left in Richmond  
when the Company left on the  
campaign and in one or two  
instances men have died from  
the Company and I have never  
been able to get the dates of  
these deaths and the same  
in other cases where I have not

RECORD OF EVENTS

On assuming command on the 30<sup>th</sup> Dec. 1862 I had through mistake or otherwise failed to turn over to me the 3 muster and Pay Rolls turning over but two only for the months of Sept. Oct. Nov. & Dec. 1862. Since I was left destitute of a copy of the former muster & Pay Rolls to aid me in making out the present one, any error in this muster & Pay Roll is attributed to that fact.
